

# hello.

## we're here to help makers actualize

Product development and hiring solutions to help innovative entrepreneurs bring their ideas to life.

### benefits

**Can't get enough sleep due to trying to communicate with your team abroad?**

Same Timezone & Proximity. Fast response time and better communication.

**Is it challenging to afford an experienced team?**

Sr. developers at the price of Jrs. Save up to 2/3 of your development costs.

**Tired of working with teams without the skills your project requires?**

Tailor your team based on your product needs.

**Having a hard time finding the right developers?**

40K+ Network of Engineers. Client-facing, english fluency, startup experience.

**Is culture making it hard to deliver meaningful products?**

Strong understanding of US working culture/style.

**Are you done with spreadsheets and unscalable tools?**

Keep your project current with the best of modern technologies.

### how it works

- 01 **Tell us more about yourself**  
Fill out your questionnaire. Let us know your requirements (NDA protected step).
- 02 **Your needs, our priorities**  
Get a custom Development Roadmap & quote proposals that match your needs.
- 03 **Ready to start? Get legal coverage**  
E-sign with a US based company with strong IP measures in place.
- 04 **Your team and strategy**  
We establish a team & co-create a product strategy.
- 05 **Your plan gets executed**  
We execute the plan together in an agile & lean way.
